Do You Want Better Control Over Your PC?

PC-HelpLine Associates Can Help You!!

We Teach Formal Courses

Introductory Courses:

PC, Macintosh, Windows

Essential Courses:

Excel, Lotus 1-2-3, PageMaker,
Quattro Pro, Windows, WordPerfect

— In our Learning Center or at our Client's site

We Train One-on-One

Enhancing current skills
Learning advanced skills

— Your place or ours

We offer PC-HelpLine

An interactive telephone service
to help you with:

Your PC or Macintosh computer
Your applications programs

— Extended hours of service

Here are some of the advantages we offer at PC-HelpLine Associates

Class size limited to three students:

This assures that a student's questions
are answered promptly.

Hands on training:

In our Learning Center, each student
has his/her own learning station with a
VGA monitor, keyboard, and a mouse,
all wired into a teaching computer.
Each student also has his/her own
coursebook and personal practice
diskette.

Practice and Reinforcement:

Our classes are organized in learning
'modules', each about 2 1/2 hours long.
Class modules are scheduled with one
or two days in between. This allows the
student time to practice new skills and
work on areas that need review.

Flexible Training Arrangements:

One-On-One training-

Allows a student to choose which specific
areas he/she wants to cover.

On-Site training-

For those people who prefer to receive
instruction at their office or work location.
